

Question 1

What's the most important difference between checkboxes and a `RadioGroup` of radio buttons? Choose one:

- The major difference is that checkboxes enable multiple selections, while a `RadioGroup` allows only one selection.

Question 2

Which layout group lets you align a set of `CheckBox` elements vertically? Choose one:

- `LinearLayout`

Question 3

Which of the following is the method of the `Checkable` interface to check the state of a radio button (that is, whether it has been selected or not)?

- `isChecked()`
